

Nucleoflex Evolution

INDICATIONS

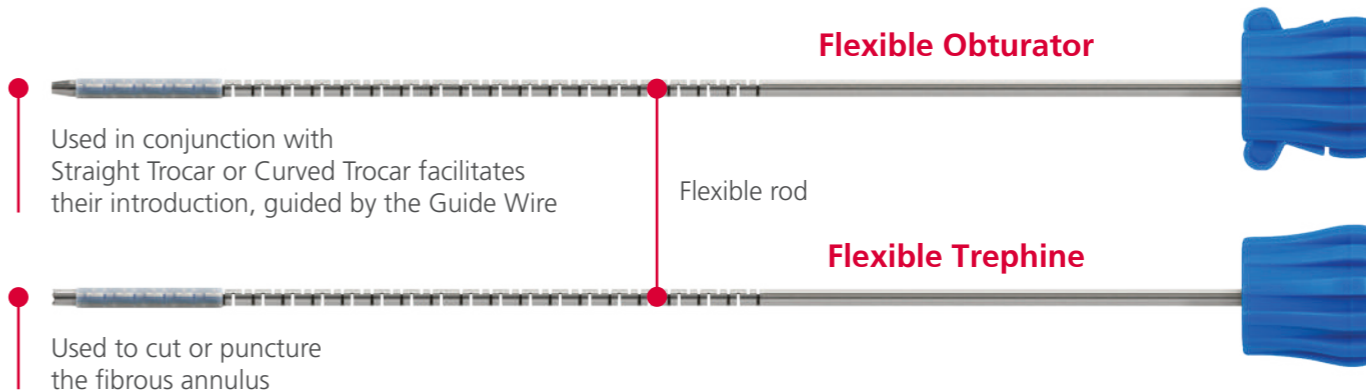

It provides a method for lumbar intradiscal decompression, as well as the option of medicated bilateral locking. Through curved access instruments and the flexible cannula, it provides the surgeon with an effective system, in regions with restricted access (L5-S1), for the surgical treatment of intervertebral disc hernias.

Merely illustrative images

The angles of the Curved Trocar, combined with the flexible rods of the Obturator, Trepine and Cutting Cannula allow the decompression of the hernia in areas of difficult access.

MODELS

Nucleoflex Evolution 100R (Code: 921190200)

- Straight Trocar (1 unit)
- Curved Trocar (1 unit)
- Flexible Obturator (1 unit)
- Flexible Trepine (1 unit)
- Flexible Cutting Cannula R (1 unit)
- Suction Tube with Collector (1 unit)
- Nitinol Guide Wire (1 unit)
- Locking Cannula 100 mm (2 units)

Nucleoflex Evolution 120R (Code: 921190500)

- Straight Trocar (1 unit)
- Curved Trocar (1 unit)
- Flexible Obturator (1 unit)
- Flexible Trepine (1 unit)
- Flexible Cutting Cannula R (1 unit)
- Suction Tube with Collector (1 unit)
- Nitinol Guide Wire (1 unit)
- Locking Cannula 120 mm (2 units)

Nucleoflex Evolution 100L (Code: 921190300)

- Straight Trocar (1 unit)
- Curved Trocar (1 unit)
- Flexible Obturator (1 unit)
- Flexible Trepine (1 unit)
- Flexible Cutting Cannula L (1 unit)
- Suction Tube with Collector (1 unit)
- Nitinol Guide Wire (1 unit)
- Locking Cannula 100 mm (2 units)

Nucleoflex Evolution 120L (Code: 921190600)

- Straight Trocar (1 unit)
- Curved Trocar (1 unit)
- Flexible Obturator (1 unit)
- Flexible Trepine (1 unit)
- Flexible Cutting Cannula L (1 unit)
- Suction Tube with Collector (1 unit)
- Nitinol Guide Wire (1 unit)
- Locking Cannula 120 mm (2 units)

Nucleoflex Evolution 100F (Code: 921190400)

- Straight Trocar (1 unit)
- Curved Trocar (1 unit)
- Flexible Obturator (1 unit)
- Flexible Trepine (1 unit)
- Flexible Cutting Cannula F (1 unit)
- Suction Tube with Collector (1 unit)
- Nitinol Guide Wire (1 unit)
- Locking Cannula 100 mm (2 units)

Nucleoflex Evolution 120F (Code: 921190700)

- Straight Trocar (1 unit)
- Curved Trocar (1 unit)
- Flexible Obturator (1 unit)
- Flexible Trepine (1 unit)
- Flexible Cutting Cannula F (1 unit)
- Suction Tube with Collector (1 unit)
- Nitinol Guide Wire (1 unit)
- Locking Cannula 120 mm (2 units)
